About Me...

I am a highly driven graphic, web, and photography professional with over 15 years of practical and freelance experience. I established a freelance design business specializing in graphic design, web development, photography and digital design. Throughout my career as a freelance designer, I have provided consulting and brand development services to effectively promote client products and services for a variety of businesses throughout Northeast Ohio, all of which were from referrals.

Throughout my freelance career, I have found myself continually problem-solving and adapting my current skills or learning new ones to accommodate client needs. My work has consistently demonstrated a proven ability in customer service, collaboration, and delivering dependable results. I have strong initiative, an independent work ethic, and a commitment to continuous improvement.

RDT CONCEPTS **WEBSITE & MARKETING**

RDT Concepts, a storage solutions provider, needed a strong online presence to effectively showcase their products and services.

I designed and developed a comprehensive website to emphasize the versatility of their offerings across diverse market sectors.

Marketing was supported with targeted email campaigns, trade show displays, flyers, case studies, brochures, and extensive on-location photography.

Direct support to the sales team included designing salesperson specific marketing and promotional materials, PowerPoint presentations, sales proposal templates, and the creation and management of RDT's product and client database.

Several pages of RDT Concepts' website were designed to promote products and installation services supported by case studies and photo galleries.

Shown above are images from on-site photography at the Ohio State University Department of Public Safety, Columbus, Ohio.

Solutions that fit your business

NOT EVERYONE CAN SAY THEY DO IT ALL...

we can

RDT Concepts has the resources to take your project from start to finish.

Our organization consists of:

- Design team
- Installation team
- Service & Repair team
- On site professional services

Storage solutions that achieve your goals

An organized, efficiently run business is critical to your company's continued success.

RDT Concepts takes a proactive approach in providing your business with practical, cost effective solutions custom designed around your unique requirements. Whether you need products, services, software or an installation team, RDT Concepts has the experience and resources to successfully serve your business. Being well connected with today's leading manufacturers provides our customers with the most modern and innovative storage products on the market today.

Installation, Service & Repair Teams

Installation
RDT Concepts has secured the services of top notch people from our industry. Doing so has given us reason to boast about our installation team and services we offer to our clients. During our extensive product knowledge and customer service training, we will save you a project from the moment it is ordered until the final walk through with our customer.

Service & Repair
Our service department handles warranty claims and service calls as well as preventive maintenance to keep your installation performing smoothly. RDT also provides service contracts.

Solutions that fit your business

AUTOMOTIVE

Organized storage that saves space and increases productivity

Organized, Efficient Storage for your entire operation

Our automotive storage solutions will keep you organized, efficient and effectively utilize space within your dealership, repair shop, or quick lube/diagnostic operation. From the business office to the parts and service departments, we have provided solutions to many different automotive businesses utilizing our broad range of products. Our solutions for both storage and organization have included:

- Service and warranty folders
- Large and small parts storage
- Tire crib storage
- Tire and battery storage
- Lights and deep drawers for an efficient and cost effective parts department
- Multi-deck shelving and mezzanines to take advantage of larger vertical space that otherwise went unnoticed

We have large and small cubicles as our distribution center, overlook parts and regional fulfillment centers, and even the smaller 1-3 bay service garages. RDT Concepts automotive division has helped the industry, 1-3 bay operations open up to reports to 400+ sq. ft. by utilizing the products and design services.

In addition to our products, we have also provided inventory services that will come on-site and audit your inventory with certified reports showing your counts, surpluses, and deficiencies and we will help provide solutions to rectify any discrepancies. As part of our design and design services, we can look at utilizing a wide range of storage solutions including vertical file, mobile racks, modular drawers, and specialized shelving. We can work with an existing contractor or architect for new construction or work with your business manager, parts manager, and service manager for existing operations.

RDT Concepts will pledge to provide the products and services that will have you running more efficiently in no time.

Detailed Surveys determine your needs

RDT Concepts will conduct a detailed survey to understand what you are storing and how your company interacts with various media types.

Upon survey completion, we will provide a detailed scope of the project, drawings and investment information.

Keep your business running smoothly, our installation and service team:

- Offers complete installation services
- Provides maintenance and service on products purchased through RDT or on currently installed products
- Handles warranty and service calls
- Provides preventive maintenance

Applications within the Automotive Market

Parts Departments

RDT Concepts can provide the products and design services that will help your parts department run as efficiently as any other aspect of your business. We can help reduce or eliminate the parts response time and a lack of organization within your parts department, your parts department should operate as a profit center for your business.

RDT Concepts will help you design and audit your parts department by simply asking if you are running any customers' inventory and accessories in stock or on order. We can help you with your customers waiting at the counter for needed parts instead of finding a way to get them. Your Parts Department can be a profit center for your business. RDT Concepts provides a comprehensive audit of your parts department, including a detailed report of your inventory, a list of parts that are not in stock, and a list of parts that are in stock. We can help you with your customers waiting at the counter for needed parts instead of finding a way to get them. Your Parts Department can be a profit center for your business. RDT Concepts provides a comprehensive audit of your parts department, including a detailed report of your inventory, a list of parts that are not in stock, and a list of parts that are in stock. We can help you with your customers waiting at the counter for needed parts instead of finding a way to get them. Your Parts Department can be a profit center for your business.

Service Departments

RDT Concepts can provide the products that will help your Service Departments maximize their 150 (Customer Service Index) and allowing it to be higher than the industry standard. Through the use of quality benches and drawers along with the right combination of well-placed storage units RDT Concepts can greatly increase service efficiency. Our design and implementation will help your Service Department increase from 100 to 120, 130, 140, 150, 160, 170, 180, 190, 200, 210, 220, 230, 240, 250, 260, 270, 280, 290, 300, 310, 320, 330, 340, Web Design & Development

BIRDIE'S BAKERY CMS WEBSITE DESIGN

This concept project was created for a fictional family-owned bakery and cafe'. The primary focus was to promote *Just a Bites*, a menu featuring bite-sized desserts.

The site was designed with a warm pastel color palette and imagery to reflect the inviting nature of its cozy, cottage inspired atmosphere.

I used Webflow's CMS to create a page designated for each bakery item with descriptions, nutritional information, and suggestions for larger portions of the selected pastry.

This structure not only enhanced user experience by offering clear, accessible information, but also created opportunities to upsell, potentially increasing revenue.

One promotional priced item per portion, per visit.

Pure Delight in Every Bite!

Humble Beginnings

Birdie's Bakery opened in February of 2002, a collaboration between Elizabeth, "Birdie", Cunningham and her granddaughter, Sarah.

Sarah's childhood was often spent in her grandmother's kitchen, tasting pies, cakes, cookies, breads and other baked goods from scratch. Birdie's family baked goods were enjoyed so much by friends, family and neighbors that Sarah and Birdie decided to open their own bakery.

Our products are made by hand, from scratch, and fresh daily. We use the highest quality ingredients such as European butter and free-range eggs from local farmers.

About Us

Full Service Bakery

Birdie's offers a wide array of baked goods, including breads, pastries, cakes, and pies, and options for custom orders and specialty items.

Catering

No party is complete without bakery treats! Let Birdie's Bakery handle all of your catering needs for your upcoming graduation party, bridal shower, baby shower, wedding, holiday party or any event that you have.

Cottage Inspired Cafe'

Our soft pastel colors and cottage style provides a comforting and relaxing atmosphere for visitors to enjoy their homemade bakery.

Stop in and pair your bakery item with a cup of coffee, hot chocolate, cappuccino, flavored tea or carbonated drinks. Prefer to enjoy your treat outside? Enjoy outdoor seating on our beautiful patio!

Bakery to Go

Don't have time to come inside and visit? Order your baked goods to go and pick them up inside or treat us and park in the spot reserved for pickup orders and we'll bring your order to you.

Just-A-Bites

Small Bites, Big Flavor

Our most popular pie flavors now come in bite sized portions. For those times when you're craving just enough dessert to satisfy your sweet tooth, give our "Just a Bites" a try.

Bakery was meant to be Paired and Shared

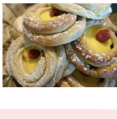

Stop in and pair your baked delights with a cup of coffee, espresso, flavored teas or soft drink.

Bring some bakery home, to the office or to your next event. We offer catering services and accept custom orders for your special occasions.

We require advanced notice for specialty cakes, pies and large orders and base our lead time on the complexity and size of the order. Give us a call at (888-556-8270) and we will be happy to assist you!

BAKERY HOURS:
Daily: 7am to 8pm
Closed: Thanksgiving and Christmas day.

Birdie's Treat Club

Sign up and earn points for every order you place.

Earned points turn into discounts and free bakery!

Ordering inside? No problem, just provide us with your phone number and your purchase will be added to your account.

Web Design Project Management

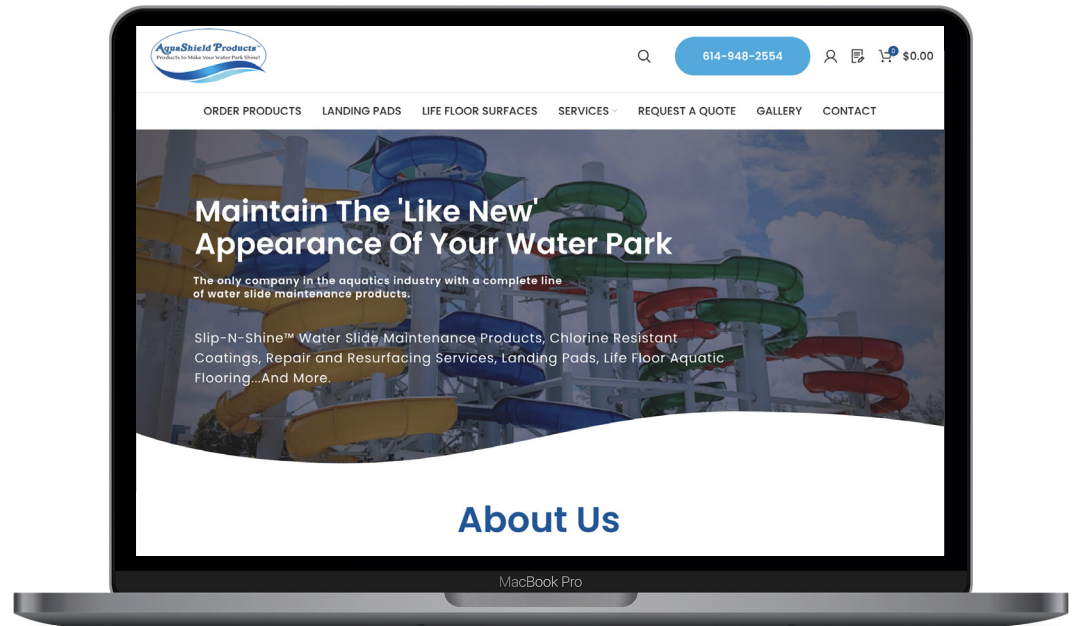

AQUASHIELD E-COMMERCE WEBSITE

I managed the development of AquaShield's e-commerce website to support their shift to online sales.

While a third-party agency handled the WordPress build, I ensured consistency across the project's content, branding, and messaging.

My responsibilities included design modifications, content development, proofreading, image selection and creation, mockups, and maintaining alignment with existing marketing materials I had previously developed.

Over several years, I played a key role in building and supporting AquaShield's brand through product photography, label and web design, and a wide range of marketing materials including data sheets, postcards, handouts, and trade ads.

Landing Pads

MADE WITH 100% RECYCLED PVC T1

Water Slide Landing Pads Are More Than Just Aesthetic Features

They play an important role in water park safety by reducing and preventing abrasions and impact injuries. An important consideration in choosing a landing pad is not only a pad's ability to resist becoming a breeding ground for fungi and bacteria, but also to be safely mounted without the use of metal bolts or screws that will rust or cause injury. Nylon surface anchors, commonly referred to as bottom plugs, can crack from repeated impact, resulting in the pool becoming, sitting and potentially becoming a safety hazard.

Learn More About Us

Safer Softer Landings Above and Below the Water Line

SlidePad® and EdgePad™ were designed to replace old, unsafe landing surfaces.

SlidePad® has enhanced the safety aspects and softness of the landing surface by featuring beveled edges and a top landing surface from life floor, the all-cyclastic flooring in the industry. Life Floor's proprietary ripple texture landing surface provides a slip-resistant surface that is ASTM D32-181 84 rated and meets critical fall height requirements up to 7 feet. EdgePad™ are the only aquatic pads that feature certified safety landing surfaces.

MADE WITH 100% RECYCLED PVC T1

No Drilled Holes or Bolts in the Pool Floor

Drilling holes and installing bolts in the pool floor increases the probability of water leaks, surface cracks and creates a safety hazard. SlidePad® has eliminated the need to drill holes or install other landing surface with bolts. Both SlidePad® and EdgePad™ can be glued to any type of pool floor or decking surface and is guaranteed not to float or sink after installation. Our landing pads are not only chlorine resistant, but also resistant to UV exposure, impervious to water and are fungistatic and hygienic.

Standard Sizes are in stock, ships in 24 hours!

SLIDEPAD®

SlidePad® was designed to replace old, unsafe landing pads.

- Install at the end of slides, pool floors or any area requiring a slip-resistant safe landing.
- ASTM D32-181 84 rated and meets critical fall height requirements up to 7 feet.
- Guaranteed not to float!
- Soft beveled edges and borders reduce trip hazards.
- Standard Sizes are in stock, ships in 24 hours!
- Custom sizes available!

EDGEPAD™

EdgePad™ is designed to protect guests from accidental falls occurring on pool edges, play areas, obstructions and pool side walls.

- ASTM D32-181 84 rated and meets critical fall height requirements up to 7 feet.
- Can be custom-made to accommodate any pool gutter pattern.
- Install at the edge of any pool requiring a slip-resistant protective corner.
- EdgePad™ can be customized to fit a variety of pool edge configurations.

Our standard 2" thick SlidePad® (color, Blue/Red, Ripple texture) are in stock and available for immediate shipment. Standard sizes include 3'x4', 3'x6', 4'x6', 4'x8'.

SlidePad® and EdgePad™ are also available in custom sizes and fabricated to customers' specifications.

We Stand Behind Our Products

All SlideRenu® products are backed by the most comprehensive product warranty in the industry. If you are not completely satisfied, we will send you a full refund or replacement product! For further details, please refer to the [Limited Product Warranty](#).

K UX/UI Design

Q STREET DINER WEBSITE REVISION

This project involved updating the existing website for Q Street Diner.

I redesigned the site with an Art Deco inspired theme to complement the style of the diner's logo.

To highlight the cozy atmosphere frequently mentioned in online reviews, I designed the homepage to include interior photos that showcase the charm and character of this family-owned business.

The original static image menu was replaced with an interactive, category-driven design.

When a menu category is selected, only its related items are displayed. The active category is outlined in red to clearly indicate which section is being viewed and its corresponding items.

Images of menu items were added to enhance visual appeal, support decision-making, and encourage sales through a more engaging presentation.

BREAKFAST

BASICS

-BENEDICTS AVAILABLE ON THE WEEKENDS-

2 eggs, toast, homies or hash browns.....	8.00		
2 eggs, ham, bacon or sausage, toast, homies or hash browns.....	11.50

UX/UI Design

CUYAHOGA COMMUNITY COLLEGE MOBILE APP PROTOTYPE

This project focused on designing a mobile food ordering app to make improvements to both the UX and UI of the current app being used.

I began the project by conducting a competitive analysis comparing Tri-C's existing app to leading food ordering platforms. I chose Panera Bread as a key reference point, applying those insights to guide the wireframing and prototype development process.

IPHONE 16 MOCKUPS

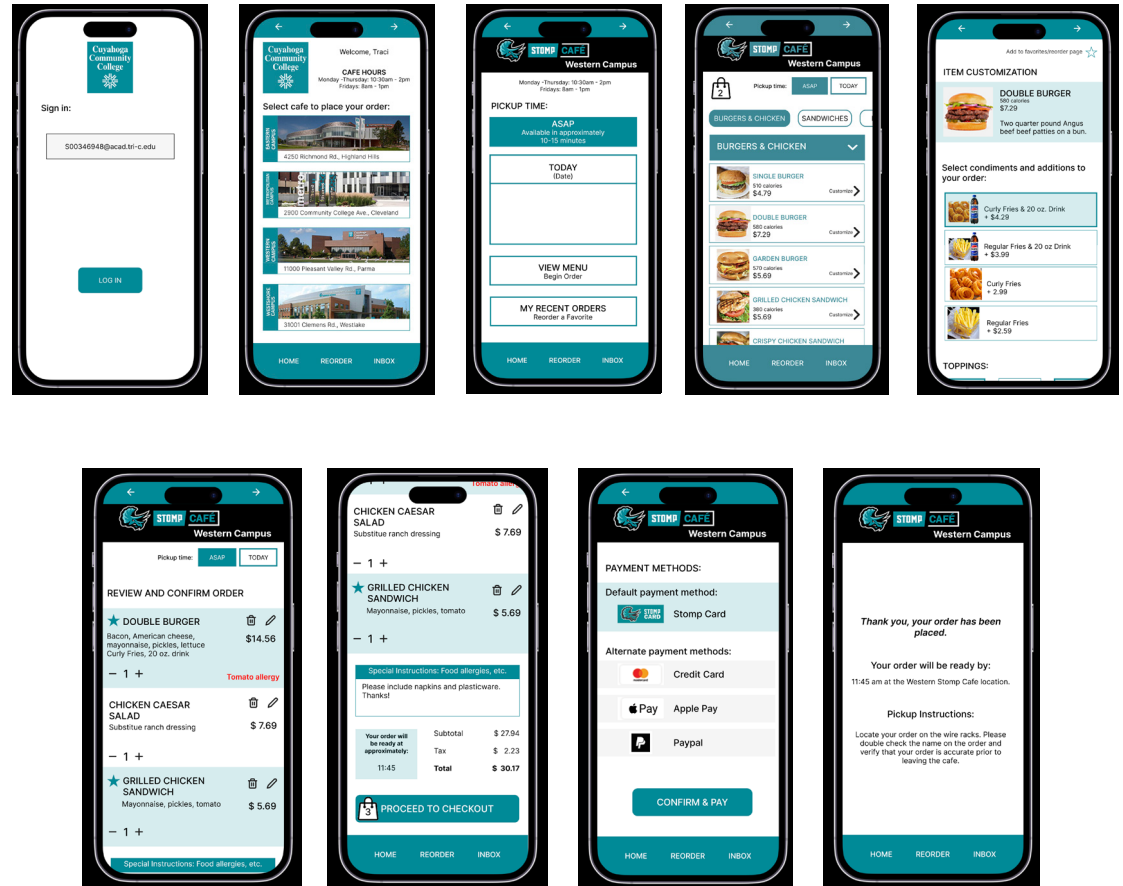

The prototype was designed using Tri-C's branding, incorporating their colors and mascot to maintain visual consistency with their brand identity.

Menu photos enhance visual appeal and support user decisions, while interactive cues clearly show selected items and customizations.

Customization choices are hierarchically organized with "upsell" additions listed first to encourage additional purchases and meal enhancements.

Allergy information is displayed in red, alerting the cafeteria of necessary precautions during order preparation.

Users can revise orders before submitting and save selections as favorites for faster reordering.

Graphic Design

NEW LIFE MESSAGE BROCHURE, MARKETING

When this client relocated to her own studio, she wanted a fresh brand identity to promote her work as a solo massage therapist and provide her client base with information about her instructors, classes, and services.

I developed a new logo and a variety of marketing materials, including this brochure. Her marketing was complemented with rack cards, business cards, local advertisements, gift certificates, and additional promotional pieces.

Her partner also wanted a logo refresh that reflected the essence of her brand, *Breathe*. I designed a logo that feels light, airy, and flowing, capturing the calm, graceful style she envisioned.

Enjoy New Life!

Every day, people "just live" with pain. Pain can diminish our quality of life.

But, what if you could:

- Have less or no pain
- Do more with less or no pain
- Reduce medications
- Sleep better
- Enjoy life more!

Massage can positively impact pain by improving blood and lymph circulation, decreasing muscular tension, and reducing stress/anxiety. Some conditions massage therapy can benefit are:

- Headaches
- Plantar fasciitis
- Carpal tunnel syndrome
- Scoliosis
- Spinal stenosis
- Degenerative disc disease
- Post surgical edema
- Scar tissue functionality
- General neck and back pain

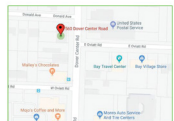

Pain affects us all and in various aspects of our lives. Continued pain creates stress that adversely affects the mind and body, compromising our health and prematurely aging us internally and externally.

The need to restore and renew ourselves back to a healthy balance becomes imperative. Fortunately, there is something we can do about it!

Step into Health Step into Whole Living Step into Life!

At New Life Massage & Whole Living Solutions, my focus is excellence. As a skilled, trained therapist, listening to your needs and goals is of utmost importance when customizing a treatment plan to achieve those goals.

Your body's ability to heal comes from within. New Life provides alternative healing solutions and encouragement to help you tap into that power.

Orthopedic Massage (OM)

Orthopedic Massage (OM) is a system or protocol of various tried and tested massage techniques designed to identify, treat, and restore functional and structural balance to the body. OM can be used to identify and treat conditions such as:

- Sciatica
- Lower back injuries
- Whiplash injuries
- Scar tissue injuries
- Rotator cuff injuries
- Frozen shoulder/hip
- Minor muscle/tendon repair

Deep Tissue Massage

Deep Tissue Massage is designed for injury recovery, as well as pre and post event massage for athletes. This type of massage is particularly helpful in breaking down the bands of rigid tissue to relieve pain and prepare the whole body to receive the care it needs.

Deep tissue massage restores normal resting length of muscles by opening fascia and realigning muscle fibers and scar tissue. As a result, muscles and joints move more easily. Normal resting muscle length and ease of movement helps prevent injury and decreases pain.

Therapeutic Massage

Therapeutic Massage focuses on the alleviation and prevention of pain and discomfort from tight muscles, spasms, stress, and chronic or acute pain conditions. Therapeutic Massage utilizes several bodywork techniques when dealing with acute and/or chronic pain such as:

- Myofascial release
- Multi-directional cross-fibering
- Trigger point therapy
- Hot/cold therapy
- Aromatherapy

Real Massage, Real Results!

Book your appointment online or call today! 440-773-6464

Bamboo Fusion

Various sizes of bamboo and rattan are heated and used to warm the tissues literally rolling and kneading away aches and pains.

Oncology Massage

Oncology Massage can bring comfort to people living with cancer and its after effects. All techniques are used mindfully according to each client's needs and concerns.

Relaxation Massage

The slow, broad sweeping motions of hands and forearms, brings welcomed relaxation and stress reduction.

Relaxation massage:

- Promotes overall relaxation
- Improves circulation
- Increases range of motion
- Relieves minor muscle pain

Hot Stone Massage

Hot Stone Massage is comforting, intensely relaxing, and rejuvenating. Heated smooth, flat stones are placed at key points on the body. Then, the warm stones are used to massage the body. The heat warms and relaxes the muscles easing pain, anxiety, and stress.

NEW LIFE

Massage & Whole Living Solutions

You're Invited!

Join us on Saturday, May 6th from 2-4pm, as we "Breathe New Life" into our community during our grand opening celebration!

We invite you to enjoy cake, punch, live music, raffles and more!

SLIDERENU POSTCARD MAILER

Postcards were created to announce the launch of ViroShield, the latest addition to the SlideRenu product line.

I designed the product label using a bubble motif to reflect its peroxide-based formula, then carried that aesthetic into the postcard design for visual consistency.

Ahead of opening season, postcards were mailed to waterparks nationwide, featuring a limited-time offer to encourage early sales.

Viro-Shield...The Safest and Most Effective Disinfectant

PURE HYDROGEN PEROXIDE H2O2

Chlorinated pool water is an effective destroyer of broad-spectrum pathogens that could otherwise make your water park visitors sick.

BUT WHAT ABOUT SURFACES IN HIGH-TRAFFIC AREAS? Now more than ever, it is vital for water parks, recreational facilities, indoor/outdoor playground features, senior centers and many other community premises to take necessary health and safety precautions to ensure the continued welfare of your guests and staff.

Viro-Shield is made from pure Hydrogen Peroxide (H2O2) and is the most effective natural oxidizer, cleaner, deodorizer and anti-microbial solution known to science! This natural sterilizer cleans and disinfects hard, non-porous surfaces to destroy essential components of germ cells and deactivate a wide range of micro-organisms.

Viro-Shield will protect your guests and staff from germs, viruses, bacteria and kills mold, fungi and spores on high-touch/traffic areas such as:

- Interactive Play Features
- Climbing Walls
- Handrails
- Pool Accessories
- Playground Equipment
- Concession Areas
- Benches
- Locker Rooms
- Splash Parks

NOW ONLY \$29.99 per gallon! (Shipping not included)

The CDC and EPA recommends Hydrogen Peroxide to disinfect against SARS and OIV-2

SLIDERENU PRODUCT LINE DESIGN

SlideRenu wanted to modernize their product labels while maintaining strong brand recognition across their line of waterslide maintenance products.

I developed a label design system that used consistent branding elements paired with distinct color schemes for each product.

This allowed customers to easily differentiate products, even if they didn't recall the product name.

SlideRenu's color-coded identity was incorporated throughout all marketing materials, including product sheets, mockups, labels, and other marketing collateral to ensure a unified and recognizable brand presence.

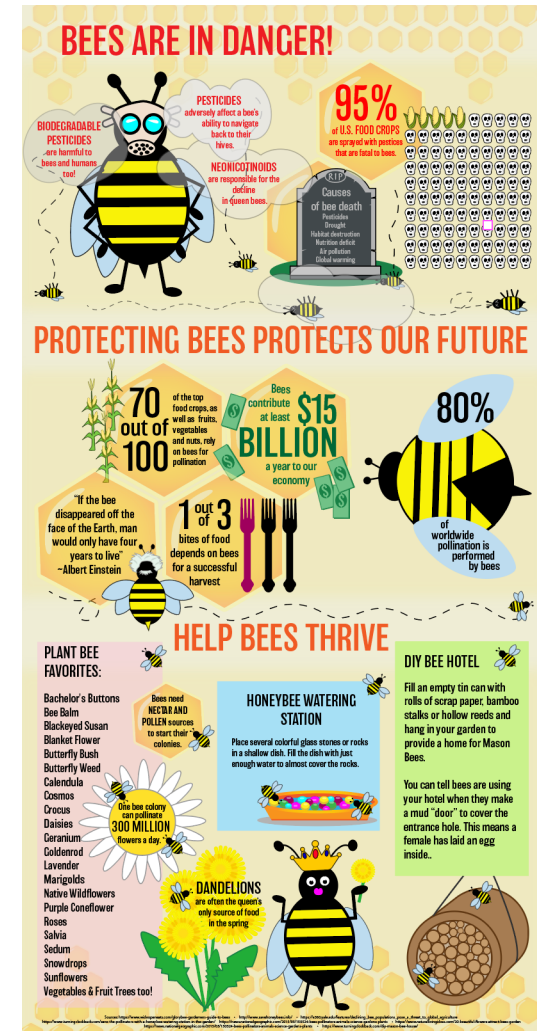

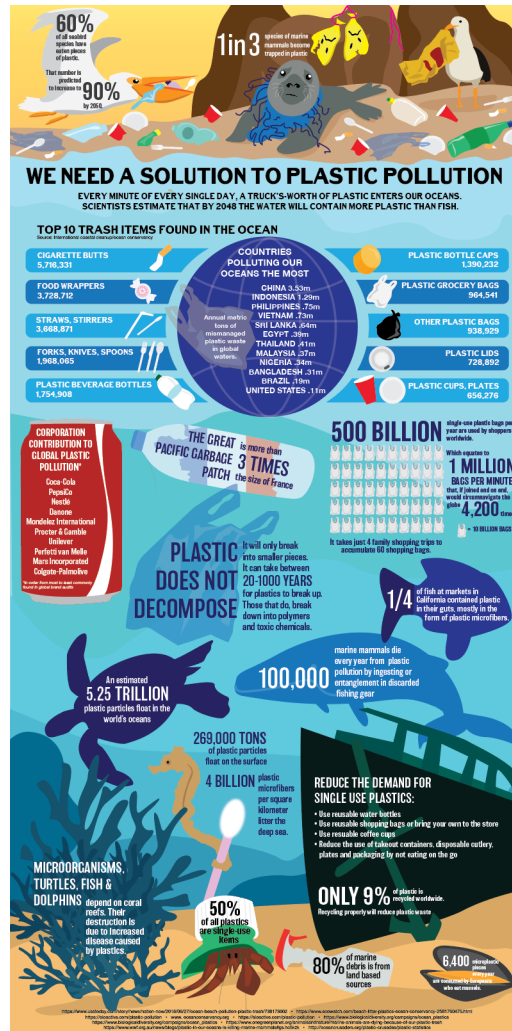

INFOGRAPHICS PLASTIC POLLUTION BEES ARE IN DANGER

Both infographics were created to raise awareness of critical environmental issues through the use of compelling visuals and data-driven storytelling.

"We Need a Solution to Plastic Pollution" highlights the severity of ocean pollution, presenting statistics and illustrated scenarios showing how marine life is affected by plastic waste.

"Bees Are in Danger" emphasizes the vital role bees play in our ecosystem and outlines practical steps individuals can take to support bee populations and help them thrive.

Both infographics were developed utilizing statistical research to bring awareness to environmental issues.

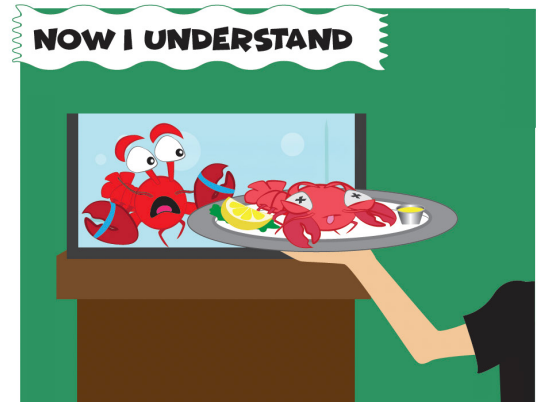

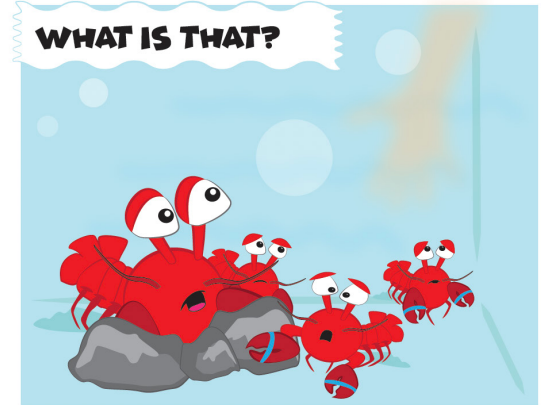

STORY PROMPTS

CURIOSITY TO CLARITY

This four-frame storyboard was created in response to provided prompts, exploring a lobster's journey from confusion to realization within a limited frame count.

The project began with hand-drawn sketches that were used to develop the story flow and character expression. Final art was created in Adobe Illustrator.

VECTOR GRAPHICS

QUEEN OF CLUBS

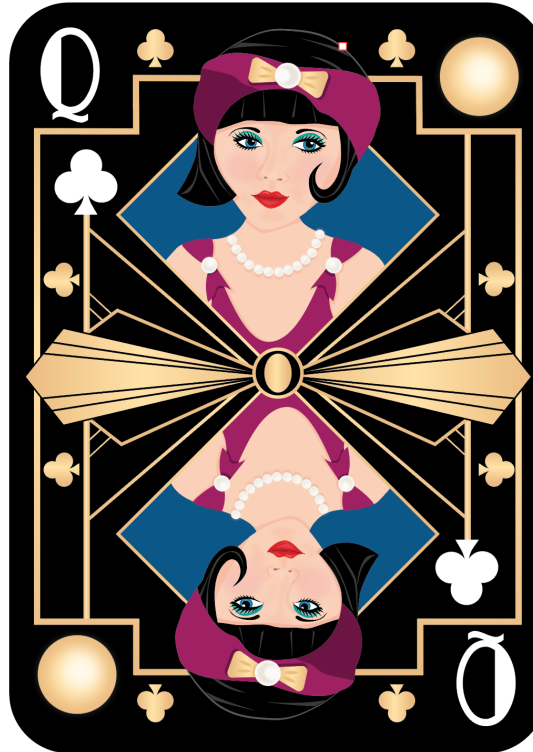

The Queen of Clubs card was inspired by Art Deco design elements and traditional playing card symmetry. This illustration focused on achieving balance, stylized detail, and elegance while incorporating a modern twist.

TEAPOT

A minimalist, high-contrast vector illustration of a teapot from a photograph with a focus on form, light, and shadow.

MONSTER TRUCK

Aimed at a younger audience, this image emphasizes bold shapes and dynamic movement.

ELEPHANT SANCTUARY

A logo created for an elephant sanctuary. The design uses a two-color palette and a stylized negative space.

JOHN'S CLASSIC AUTO PARTS

A brand identity design for a classic auto parts business.

The logo combines a custom-illustrated vintage truck with a bold, retro-style serif font, conveying a sense of nostalgia and authenticity.

K Illustration

3D TOY CAR DESIGN PRODUCT VISUALIZATION & PACKAGING

A 3D design concept for a series of wind-up toy cars. The cars were modeled from a simple rectangular block and transformed into a playful design.

The project included the design of a racing-themed cardboard box with a clear plastic viewing window. Packaging and colors were chosen to be consistent with a race track aesthetic.

Photography

PRODUCT PHOTOGRAPHY ON LOCATION AND STUDIO WORK

Photography with a strong focus on capturing images that align with brand identity and marketing goals.

My photography has played a key role in elevating client visibility, appearing in websites, brochures, national advertising campaigns, and a variety of promotional materials.

All images were captured with attention to lighting, composition and criteria necessary to support client objectives.

PORTRAITURE

Throughout my photographic career, I've enjoyed capturing life's most meaningful, precious and spontaneous moments from weddings, to portraiture and events.

I have a passion for post-processing, where I create custom filters, overlays, and effects to achieve results that go beyond what a camera alone can capture.

This creative approach brings a unique, artistic dimension to my work and allows each image to truly stand out because it cannot be created with the push of a button.

My post-processing techniques have proven to be a powerful marketing asset, consistently driving print sales and generating client referrals.

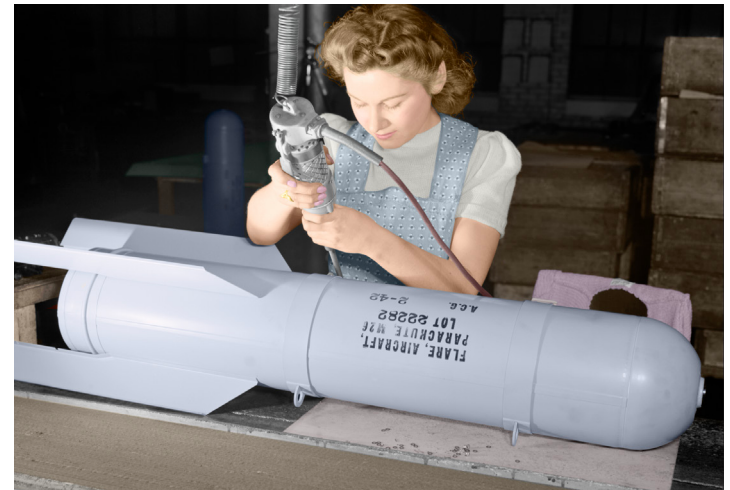

K Photography

PHOTO EDITING & ENHANCEMENT

From subtle adjustments and color correction to full image colorization and complex damage repair, I enjoy the challenge of restoring meaningful photographs with care and precision.

I particularly enjoy the process of bringing cherished memories back to life, digitally restoring aged or damaged images into keepsakes that can be treasured for a lifetime.

Thank You...

Thank you for taking the time to review my portfolio. I welcome the opportunity to connect again to discuss how my expertise can benefit your team or project.
